Subject: CMH to Represent Dynamic Air Quality Solutions

Valued Customer:

We are pleased to announce CMH now represents Dynamic Air Quality Solution in the South Florida Market.

Dynamic Air Quality Solutions is a leading manufacturer of high-performance indoor air quality products. Dynamic air cleaning systems utilize a technology called non-ionizing, polarized-media, which significantly reduces the energy and environmental footprint of an HVAC's filtration system. Over the past five years, Dynamic has helped building owners save over 78 million kWh in fan energy alone. They have the right product to fit your application, whether your goal is LEED accreditation, reducing energy costs, simplifying maintenance, or solving a problem with existing or potential indoor or outdoor air quality issues.

Feel free to contact your CMH Representative with any related questions or comments. We look forward to serving you in the near future.

Respectfully,
